Franz Dink Catalan

Computer Engineering Graduate | Administrative & Healthcare Support Specialist
+639925119733 | Email | Cebu City, Philippines | My Portfolio

SUMMARY

Detail-oriented Computer Engineering graduate with 3 years of healthcare BPO experience and extensive background in data encoding, CRM navigation, and process execution. Highly skilled in managing accuracy-driven workflows, handling sensitive data, and utilizing proprietary software systems. Adept at delivering high-precision results under pressure and seeking a part-time remote night-shift role to support international operations.

EXPERIENCE

Process Executive (Provider Services CSR)

Optum Global Solutions, Cebu | September 2022 - October 2025 | Cebu City, Philippines

- Work efficiently to meet the required metrics for quality customer service and data accuracy.
- Supported healthcare accounts with precise documentation, order/claims processing, and client communication.
- Managed end-to-end customer care inquiries regarding healthcare benefits, ensuring accurate data logging and resolution of complex process bottlenecks.
- Utilized CRM databases and internal reporting tools to process and track inquiries, maintaining a high first-contact resolution rate.
- Communicated technical process requirements clearly to non-technical users while adhering to strict data privacy and compliance guidelines.

EDUCATION

Bachelor of Science in Computer Engineering

University of San Jose-Recoletos | June 2013 - April 2020 | Cebu City, Philippines

- Gained comprehensive expertise in key computer engineering principles during the program duration.

SKILLS

- Technical Skills: Data Entry, Database & CRM Navigation, Proprietary Software & Internal Tools, Hardware/Software Troubleshooting, Microsoft Office Suite (Word, Excel)
- Professional Skills: Administrative Support, Order Processing & Tracking, Process Optimization, Healthcare Operations & Compliance, Technical Support, Problem Solving
- Languages: English (Professional Proficiency, Versant C1 Speaking and C1 Writing)

HOBBIES

- Exploring educational documentaries focused on science, history, and technology.
- Vocal performance and confidence building through structured community singing.
- Jogging for discipline, physical resilience, and personal wellness.
- Creative digital illustration and content design using modern design tools.
- Competitive E-Sports: Team-based strategy gaming focused on real-time coordination, rapid decision-making, and leadership (CODM, MLBB).
